The University of Barcelona International Summer School offers the possibility of staying at the Higher Colleges Residence-dormitory of Penyafort-Montserrat and Ramon Llull Residence Halls of the University of Barcelona, and we are certain that the chosen place to live throughout the university stage makes the difference. Therefore we offer our students and participants the possibility to go to our residence halls where every year they support about 700 students. These facilities are located between the different faculties/Colleges of universities in Barcelona, and our staff is available 24 hours a day.

The centres provide accommodation and full board every day of the week the students who live there. Always outstanding extra-academic training, promote activities among residents depending on your needs: sports, music, dance, theatre, languages and cultural activities. This results in a continuous integration of the students, who in most cases are strong friendships that are valid for life. During the summer the residence halls/dormitories offer our rooms for visitors to the city, transforming the school into a residence that seeks to meet the needs and lodging.

The University of Barcelona International Summer School will not arrange directly for the registration of the rooms, each student of the course has to contact directly the residence hall to acquire the desired rooms.
